PRESS RELEASE

Excellence in Construction/STEP & Safety Awards

Associated Builders & Contractors Chesapeake Shores member Willow Construction, LLC wins STEP and Excellence in Construction award honors

Annapolis, MD, October 11, 2011: ABC Chesapeake Shores honored the best in the construction industry at the annual Excellence in Construction, STEP & Safety Awards Ceremony on Thursday, September 29, 2011 at the Doubletree Hotel in Annapolis. Willow Construction, LLC was a stand-out company having earned a number of awards including a Gold STEP award for 2011. ABC's National Safety Training and Evaluation Process, known as STEP recognizes the efforts of ABC members that strive to achieve effective safety practices at their firms and provides contractors with a tool to objectively evaluate their safety programs, policies, procedures and training. In addition, Willow Construction, LLC earned a Safety Award in the category of General Contractors between 80,000 and 159,999 man hours.

Willow Construction, LLC was also honored with the Excellence in Construction award in the Residential Multi-Family category for the Calvert Heights Apartments project. Located in Chestertown, one of the oldest towns in Maryland, Calvert Heights Apartments was originally built in the 1970s and was in quite a state of disrepair at the commencement of the project in October 2009. The project consisted of razing 7 buildings including removal of asphalt, concrete curbing and sidewalks which was recycled by the contractor. Green building practices were utilized throughout this project. Willow Construction took what was once a dilapidated eye sore and transformed it into 41 living units with affordable housing for families in the Chestertown Community. The architect designed each townhouse with it's own unique characteristics and feel with a historic rustic appeal. Willow Construction received many accolades from the owners, DHCD and from the community.

ABC Chesapeake Shores would like to take this opportunity to congratulate Willow Construction, LLC for serving as an exemplary member of our association and our community. Congratulations!
